## Chapter XI - Open spaces and Recreational facilities

1) 80. Open spaces in close promimity of residential areas are necessary for recreational and other civic purposes. They include:-

1. Children's play grounds (under ten years of age)

These must be available within quarter of a mile of each group of houses in a residential area.

2. Traffic Squares and circles within built up areas, serving incidentally as lung spaces;

3. School play grounds;

4. Adult play grounds, (For Foot-ball, Cricket, Hockey, Golf and etc.,)

5. Sport Centres

6. Local parks;

7. Regional parks,

8. Areas of natural scienic value

Though, taking the City as a whole, it may be said that there is a reasonable amount of open space, its distribution over different parts of the City is far from satisfactory. Hardly any school in the City has adequate play-ground space.

2) 81. The following lists furnished by the Corporation give particulars of (1) open spaces, (2) parks, (3) Playgrounds in the Corporation limits:-

| Sl No. | Division No. | Open spaces. |
|---|---|---|
| 1 | 2 | Open place between Ist Main Road and Temple Road. |

EXTRACT

For Secretary to Government,
L.S.G.& Planning Departments.

knr-2.6.54(4)

The above extract from the Bangalore Development Committee is submitted for perusal. There is provision in the City Municipalities Act prohibiting any land from being built upon. There appears to be no such provision in the Corporation Act. An administrative order may perhaps issue as recommended. A draft go is accordingly put up for consideration.

M 8/6

PROCEEDINGS OF THE GOVERNMENT OF MYSORE.

ORDER No.L2241-4 DB 38-54-1

DATED, BANGALORE, THE 14 JUNE 1954.

The Bangalore Development Committee, in their report on the future development of Bangalore, recommend that it is necessary to preserve open spaces in close proximity of residential areas for recreation and several other facilities as noted below:-

(1) Children's Play-ground (under ten years of age) - These must be available within a quarter of a mile of each group of houses in a residential area.

(2) Traffic squares and circules within built up areas, serving incidentally as lung spaces.

(3) School Play-ground.

(4) Adult Play Grounds - for Foot-ball, Cricket, Hockey, Golf etc.

(5) Sport Centres.

(6) Local Parks.

(7) Regional parks.

And (8) Areas of natural scenic value.

2. The Committee observes that though taking the City as a whole it may be said, that there is a reasonable amount of open space, its distribution over different parts of the City is far from satisfactory and that hardly any school in the City has adequate play-ground space.

3. The list appended herewith gives particulars of open spaces parks, play-grounds in the Corporation limits.

4. The Committee recommends that every care should be taken to preserve these open spaces and prevent their conversion for building purposes. Government agree with the Comitee and they direct that no area shown in the list enclosed should be disposed of for any other purpose except with the previous approval of Government. The Commissioner, Corporation of the City of Bangalore, the Chairman, City Improvement Trust Board, Bangalore and the Deputy Commissioner, Bangalore District, are requested to see that necessary care is taken to keep these areas open, as recommended by the Committee.

(V.Hanumanthappa)

remarks:-

The only item on which the Trust Board can furnish its opinion is with regard to the jurisdiction and duties of the several agencies, for example the Trust Board, The Municipal Corporation and the Mysore Labour Housing Corporation in the Greater Bangalore area. I entirely agree with the ~~case~~ recommendation of the Chairman of the Labour Housing Corporation that the layout works may be entrusted to the City Improvement Trust Board, Bangalore, and construction of buildings may be taken up by the Mysore Housing Board or the Labour Housing Corporation. Virtually the Trust Board will have to be in charge of the areas of Greater Bangalore. In this connection I would like to draw attention to this office letter No.C.42/54 dated 27th July 1954 sent to Government to place the matter before the Select Committee and suggest suitable amendments to the Housing Board Bill under contemplation.

Referred to the Law Secy on 4/9/54 (D.No. 3294)

42. In this connection the desirability of having a Housing Board as in Bombay has to be considered. As stated already, the problem of housing lower income groups (including middle classes) has probably even more difficult aspects than that of the labour classes. The question of having an agency to execute housing schemes for such people is therefore essential. A Housing ~~Boardx~~ Board with special responsibility for labour housing but entrusted with the work of improving housing conditions for other social groups too, on the lines of the Housing Board in Bombay, may be necessary. Housing schemes under the aegis of such a Board may be financed by grants from the Central or State Governments or by issuing debentures.

GOVERNMENT OF MYSORE

No. 5220/LYG 38-54-45 — Mysore Government Secretariat, (Municipal Branch,)

*Bangalore, Dated,* 1 ~~July~~ 1954
3-8-

From

*The Assistant Secretary to the Government of Mysore,*
*Local Self-Government and Planning Departments.*

To

The Chairman,
City Improvement Trust Board,
Bangalore

Sir,

I am directed to state that in its report on the future development of Bangalore, the Bangalore Development Committee has recommended the constitution of a Housing Board in Mysore as in Bombay. The Government of Mysore have already drafted a Bill to constitute a Board called "The Mysore Housing Board" based on the provisions of the Bombay Housing Board Act, 1948. The Bill so drafted - The Mysore Housing Board Bill, 1954 - has also been published in the Mysore Gazette dated 19-3-1954 (Extraordinary) for general information. The suggestions of the Bangalore Development Committee were also kept in view while drafting it. The Bill is awaiting its passage through the Legislature.

Yours faithfully,

31/

## Chapter V

## Location of Industries

1. Concentration of industrial establishments in selected areas, instead of allowing them to spring up in a haphazard manner in residential Zones and elsewhere, is a recognised need.

2. The new Industrial Suburb (Rajaji Nagar) that is being developed by the Trust Board near the old industrial area should be more fully utilised. All new industrial development should be guided into this suburb. This will be greatly facilitated when water supply is provided for the area. Inducements should be offered to owners of existing industrial units in the City to locate them in the suburb, and a lead may be given by Government by shifting here the Soap Factory and the Central Industrial Workshop from the administrative area near Cubbon Park where they are entirely out of place and cannot be suitably expanded.

3. The natural valley between the new suburb and the old industrial area should be preserved as an open space.

4. In future, no permission should be given for industrial concerns to be started or materially expanded in the residential zones, the only exception being small concerns catering to the immediate needs of the local community, such as flour mills, laundries, workshops for repair and servicing of motor vehicles.

5. Policy of dispersal of industries already approved should be consistently followed and wherever possible new industries should be diverted to district headquarters and other towns.

6. The Kolar Gold Fields offers great scope for industrial development with abundant supply of electric power and water, railway transport facilities, moderate landvalues, etc.

---

## Chapter VI

## A. Housing Development (Industrial)

1. The jurisdictions and duties of the several agencies e.g., the Trust Board, the Municipal Corporation and the Mysore Labour Housing Corporation, acting in the sphere of town planning and house building have to be clearly defined so as to avoid over lapping and confusion in actual working.

2. Some difficulties are also experienced in fitting in the provisions of the Mysore Labour Housing Act with those of the Central Government's Industrial Housing Scheme. The Act should be suitably revised so as to enable the Mysore Labour Housing Corporation to administer funds provided by the Central Government also and carry out housing schemes according to a co-ordinated programme.

3. Some of the largest factories are owned by the Central Govt. of India or State Government. It is natural to expect, in a welfare State, that, while enforcing the obligation of private employers to contribute to the housing of labour, these Governments would set an example to private employers by providing housing for their own industrial employers.

4. The Indian Telephone Industries and the Hindustan Aircraft, Ltd., should arrange to expedite their schemes of housing by drawing up proper programmes and providing adequate finance

so that the bulk of labour might be properly housed within, s[redacted] the next five years.

5. The Mysore Government also has to take early action in regard to the housing of the employees of the Government Electric Factory and the Government porcelain Factory, which employ fairly large labour forces and the further expansion of which seems to be contemplated.

OFFICE OF THE CITY IMPROV... TRUST BOARD
24 JUN 19[illegible]
BANGALORE

6. As for the housing of the employees of private industrial establishments, it is hoped the new Mysore Labour Housing Corporation will be able to evolve suitable schemes as soon as it has got into its stride.

7. If any of the large industrial employers, (e.g., the Binny Mills, the Maharaja Mills, the Suryodaya Mills) prefer to ~~exist~~ avail themselves of the concessions offered by the Government of India Industrial Housing Subsidy Scheme (in respect of Housing Schemes undertaken by private employers) and carry out their own housing schemes, they should be afforded every encouragement to do so.

8. It is expected that early steps will be taken to develop industrial housing in the undermentioned places.

i. Rajajinagar (North)
ii. Rajajinagar (South)
iii. For the Hindustan Air Craft Factory
iv. For the Indian Telephone Industries.
v. Near Yeswanthpur, for the Suryodaya Mills, and other concerns in that neighbourhood.
vi. Near Jalahalli.

It is not desirable to segregate industrial workers in separate and exclusive colonies. They should be housed in small neighbourhoods or townships, where all civic amenities are provided and a part of accommodation is made available to other classes of persons. This will afford the workers better opportunities for cultural growth and promote among them a healthy civic consciousness free from class bias. These considerations should be kept in view in respect of all new industrial housing schemes, whether undertaken by private employers or the Labour Housing Corporation.

---

on page 9

Para (8) The proposal of the Mysore Chamber of Commerce that a big Housing Corporation be set up, with power to take loans from Government or issue debentures when necessary and that the same be actively supported by Government deserves earnest consideration.

---

---

With reference to your letter No. L.S.590-91/L.W.dated 27-4-54 and subsequent reminder dated 21-6-54 on the above subject with the summary and Recommendations of the above Committee, I write to furnish below my opinion in respect of each para for your information.

## CHAPTER VI.

### A. HOUSING DEVELOPMENT (INDUSTRIAL)

1. The jurisdictions and duties of the several agencies e.g., the Trust Board, the Municipal Corporation and the Mysore Labour Housing Corporation, acting in the sphere of town Planning and house building have to be clearly defined so as to avoid over lapping and confusion in actual working.

The lay out may be entrusted to the City Improvement Trust Board, Bangalore and the entire construction of buildings may be given to the Mysore Labour Housing Corporation, Bangalore, Except ~~the~~ in special cases where Govt. may direct otherwise.

2. Some difficulties are also experienced in fitting in the provisions of the Mysore Labour Housing Act with those of the Central Government's Industrial Housing Scheme. The ~~act~~ Board should be suitably revised so as to enable the Mysore Labour Housing Corporation to administer funds provided by the Central Government also and carry out housing schemes according to a co-ordinated programme.

The present Housing/bill when finally passed by the Lagislature will eliminate this difficulty.

P.T.O.

|---|---|
| 3. Some of the largest factories are owned by the Central Govt. of India or State Government. It is natural to expect, in a welfare state that while enforcing the obligation of private employers to contribute to the housing of Labour, these governments would set up an example to private employers by providing housing for their own industrial eomployers. | Mysore Labour Housing Corporation has set an example. The Hindustan Air Craft Ltd., The Indian Telephone Industries The Bhadravati Iron & Steel Works and the Bhadravati Paper Mills are providing quarters to their employees. |
| 4. The Indian Telephone Industries and the Hindustan Air Craft Ltd, should arrange to expedite their schemes of housing by drawing up proper programmes and providing finance so that the bulk of labour might be properly housed within, say, the next five years | The Indian Telephone Industries and Hindustan Air Craft factory are having extensive housing schemes on hand for their employees. |
| 5 The Mysore Government also has to take early action in regard to the housing of the employees of the Government Electric Factory and the Government Porcelain Factory, which employ fairly large labour forces and the further expansion of which seems to be contemplated. | This is under correspondance with the Central Government since they have refused to give assistance to the State owned Industries |
| 6. As for the housing of the employees of private Industrial establishments, it is hoped the new Mysore Labour Housing Corporation will be able to evolve suitable schemes as soon as it has got into its stride. | More than 1500 houses are aready under construction and an even bigger programme for the current year is on hand. |
| 7. If any of the large industrial employers, (e.g., the Binny Mills, the Maharaja Mills, the Suryodaya Mills) prefer to avail themselves of the concessions offered by the Governmentof India Industrial Housing subsidy scheme(in respect of Housing schemes undertaken by private employers) and carry out their own housing schemes, they should be afforded every encouragement to do so. | If the employers come forward with the scheme of their own, the Mysore Labour Housing Corporation will provide all reasonable assistance in carrying out the programme. The schemes of several private concerns are under consideration by the Government of India. |

6

3. It is expected that early steps will be taken to develop industraial housing in the undermentioned places.

i. Rajajinagar. South.
ii. Rajajinagar. North.

The Mysore Labour Housing Corporation has an extensive building programme in (i)&(ii)

iii. For the Hindustan Air Craft Factory.

iii. & iv. The concerned factories have an hand sanctioned schemes.

iv. for the Indian Telephone Industries.

v. Near Yeswanthpur, for the Suryodaya Mills and other concerns in that neighbourhood.

v. & vi. will be taken up during coming years.

vi. Near Jalahalli.

It is not desirable to segregate industrial workers in separate and exclusive colonies. They should be housed in small neighbour hood or townships, where all civic amenities are provided and a part of accommodation is made availabe to other classes of persons. This will afford the workers cultural growth and promote among them a healthy civic consiviousness free from class bias. These considerations should be kept in view in respect of all new industrial housing schemes, whether undertaken by private employers or the Labour Housing Corporation.

This is kept in view.

Para (8) on page9

The proposal of the Mysore Chamber of Commerce that a big Housing Corporation be set up, with power to take loans from Government or issue debentures when necessary and that the same be actively supported by Government deserves earnest consideration.

Provision has been made in the proposed Housing Board Bill, for floating debunture loans for implementing the Housing Scheme.

MYSORE GOVERNMENT SECRETARIAT,

D.O. No. *Dated, Bangalore,* 21-6-54

Sub: Report of the Bangalore Dispt. Committee - Recommendations.

DEAR SIR,

I am ~~desired~~ directed to invite your attention to this Office Letter No. L.S. 190-91/LW, dated 27-4-54 and the subsequent on the subject noted above and to ~~reminders~~, request that action taken in the matter may kindly be intimated.

~~and to request that reply thereto may kindly be expedited, as the matter is long pending.~~

Yours ~~sincerely~~ faithfully,

To

for Labour Secy.

GOVERNMENT OF MYSORE.

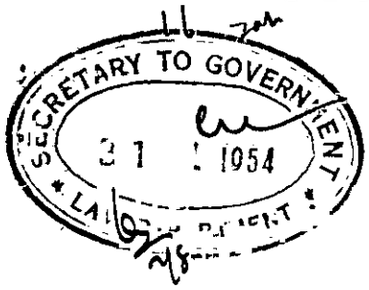
No.F2/ 1927 /54-55.

Office of the Chief Inspector of Factories and Boilers in Mysore, No.5, Infantry Road, Dated, BANGALORE-1, the 30th July 1954.

To

The Secretary to Government,
Law Department;
BANGALORE.

S i r,



Subject:- Report of the Bangalore Development Committee Recommendations.

Reference:- Your letter No.L.S.1976-77/L.W., dated 21-6-1954.

---

With reference to the subject mentioned above, I write to state that so far as the Factory Inspectorate is concerned, only stability and suitability of the building, alignment of machinery, safety measures provided, ventilation, etc., are being examined and a licence issued under Section 6 of the Factories Act, 1948, and the Rules framed thereunder. The Factory Inspectorate has at present no control over the location etc., of the factory.

It is however seen that several industries are located in congested areas within the corporation limits and it is necessary that the Corporation Authorities should not give permission to start such industries within the Corporation Areas as it affects the health of the workers and the citizens. This matter may kindly be taken up with the Corporation authorities in consonance with the recommendations of the Bangalore Development Committee.

In the interest of the health of the labour in particular and the development of industry in general, it is highly desirable to establish in future all industrial concerns which may employ more than 25 workers, with the exception of small concerns, catering to the immediate needs of the local community, such as flour mills, small workshops for repair and servicing of motor vehicles, printing press, etc.,/-

(P.T.O.)

etc., in the new industrial suburbs as recommended by the Bangalore Development Committee and also to shift the existing big concerns, already employing more than 50 workers, wherever possible from the residential zones of to the industrial suburbs.

As the recommendations of the Bangalore Development Committee are in the interest of labour and industry, the same may kindly be implemented early, through the several agencies, viz., the Trust Board, the Municipal Corporation and the Mysore Labour Housing Corporation.

Yours faithfully,

(Mohamed Rahmathulla)
CHIEF INSPECTOR OF FACTORIES & BOILERS.

**G. O. No. L. 2741-4—I.T.B. 38-54-1, dated 14th June 1954.**

---

**Preservation of open spaces.**

Issues orders regarding —— in Bangalore.

---

ORDER No. L. 2741-4—I.T.B. 38-54-1, DATED BANGALORE THE 14TH JUNE 1954.

The Bangalore Development Committee, in their report on the future development of Bangalore, recommend that it is necessary to preserve open spaces in close proximity of residential areas for recreation and several other facilities as noted below :—

(1) Children's Play-ground (under ten years of age)—These must be available within a quarter of a mile of each group of houses in a residential area;
(2) Traffic squares and circles within built up areas, serving incidentally as lung spaces;
(3) School Play-ground ;
(4) Adult Play-grounds—for Foot-ball, Cricket, Hockey, Golf, etc.;
(5) Sport Centres;
(6) Local parks ;
(7) Regional parks ;
and (8) Areas of natural scenic value.

2. The Committee observe that though taking the City as a whole it may be said, that there is a reasonable amount of open space, its distribution over different parts of the City is far from satisfactory and that hardly any school in the City has adequate play-ground space.

3. The list appended herewith gives particulars of open spaces, parks, play-grounds in the Corporation limits.

4. The Committee recommends that every care should be taken to preserve these open spaces and prevent their conversion for building purposes. Government agree with the Committee and they direct that no area shown in the list enclosed should be disposed of for any other purpose except with the previous approval of Government. The Commissioner, Corporation of the City of Bangalore, the Chairman, City Improvement Trust Board, Bangalore and the Deputy Commissioner, Bangalore District, are requested to see that necessary care is taken to keep these areas open, as recommended by the Committee.

G. V. K. RAO,
*Secretary to Government,*
*Local Self-Government and*
*Planning Departments.*

To—The Commissioner, Corporation of the City of Bangalore, through the Mayor.
The Chairman, City Improvement Trust Board, Bangalore.
The Deputy Commissioner, Bangalore District.
The Chief Engineer of Mysore.

Exd.—G. R. N.

No. L. 2741-4—I.T.B. 38-54-1, DATED 14TH JUNE 1954.
